Re: Petitions for the Imposition of Antidumping and Countervailing Duties on Imports of Truck and Bus Tires from the People's Republic of China

Dear Secretary Pritzker and Secretary Barton:

On behalf of the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO, CLC ("USW" or "petitioner"), we respectfully submit to the U.S. Department of Commerce ("the Department") and the U.S. International Trade Commission ("the Commission") the enclosed petitions for the imposition of antidumping and countervailing duties on U.S. imports of Truck and Bus Tires from the People's Republic of China. The USW is a certified union with workers engaged in the manufacture and production of a domestic like product in the United States and thus is an interested party within the meaning of 19 U.S.C. § 1677(9)(D).

The Petitions are organized as follows:

- Volume I – General Issues and Injury;

- Volume II – Antidumping Duty Allegations; and
- Volume III – Countervailing Duty Allegations.

Certification Regarding Reasonably Available Information: Pursuant to section 207.11(b)(3) of the Commission's regulations, I hereby certify that any item of information specified in section 201.11(b)(2) of the Commission's regulations that the petitions do not include was not reasonably available to the petitioner.

Certifications of Simultaneous Filing: Pursuant to section 351.202(c) of the Department's regulations and section 207.10(a) of the Commission's regulations, we hereby certify that the petitions and all required copies were filed simultaneously today with both the Department and the Commission.

Certifications: We attach to this cover letter all appropriate certifications required by the regulations. These include the requisite union and counsel certifications regarding the completeness and accuracy of the information contained in the petitions.

If you have any questions regarding these petitions, please contact the undersigned.

Respectfully submitted,

Terence P. Stewart, Esq.

William A. Fennell, Esq.

Geert De Prest, Esq.

Elizabeth J. Drake, Esq.

Philip A. Butler, Esq.

Jennifer M. Smith, Esq.

Nicholas J. Birch, Esq.

STEWART AND STEWART

* Not admitted to the D.C. Bar. Practice limited to matters and proceedings before Federal Courts and Agencies.

D. Other Forms of Relief (19 C.F.R. § 351.202(b)(4))

The petitioner has not filed for relief from imports of the subject merchandise under section 337 of the Act (19 U.S.C. § 1337), sections 201 or 301 of the Trade Act of 1974 (19 U.S.C. §§ 2251 and 2411), or section 232 of the Trade Expansion Act of 1962 (19 U.S.C. § 1862).

E. Description of the Subject Merchandise (19 C.F.R. § 351.202(b)(5))

The scope of these investigations is truck and bus tires.

Truck and bus tires are new pneumatic tires, of rubber, with a truck or bus size designation. Truck and bus tires covered by these investigations may be tube-type, tubeless, radial, or non-radial, and they may be intended for sale to original equipment manufacturers, fleet owners and operators, or the replacement market.

Subject tires have, at the time of importation, the symbol “DOT” on the sidewall, certifying that the tire conforms to applicable motor vehicle safety standards. Subject tires may also have one of the following suffixes in their tire size designation, which also appear on the sidewall of the tire:

TR – Identifies tires for service on trucks or buses to differentiate them from similarly sized passenger car and light truck tires;

MH – Identifies tires for mobile homes; and

HC – Identifies a 17.5 rim diameter code for use on low platform trailers.

All tires with a “TR,” “MH,” or “HC” suffix in their size designations are covered by these investigations regardless of their intended use.

In addition, all tires that lack one of the above suffix markings are included in the scope, regardless of their intended use, as long as the tire is of a size that is among the numerical size designations listed in the “Truck-Bus” section of the Tire and Rim

Association Year Book, as updated annually, unless the tire falls within one of the specific exclusions set out below.

Truck and bus tires, whether or not mounted on wheels or rims, are included in the scope. However, if a subject tire is imported mounted on a wheel or rim, only the tire is covered by the scope. Subject merchandise includes truck and bus tires produced in the subject country whether mounted on wheels or rims in the subject country or in a third country. Truck and bus tires are covered whether or not they are accompanied by other parts, *e.g.*, a wheel, rim, axle parts, bolts, nuts, etc. Truck and bus tires that enter attached to a vehicle are not covered by the scope.

Specifically excluded from the scope of these investigations are the following types of tires: (1) pneumatic tires, of rubber, that are not new, including recycled and retreaded tires; and (2) non-pneumatic tires, such as solid rubber tires.

The products covered by the petitions are currently classified under the following HTSUS subheadings: 4011.20.10.15 and 4011.20.50.20. Tires meeting the scope description may also enter under the following HTSUS subheadings: 4011.99.45.10, 4011.99.45.50, 4011.99.85.10, 4011.99.85.50, 8708.70.45.30, 8708.70.60.30, and 8708.70.60.60. For ease of reference, we attached at **Exhibit I-12** the relevant excerpts from the 2016 edition of the Harmonized Tariff Schedule. While HTSUS subheadings are provided for convenience and for customs purposes, the written description of the subject merchandise is dispositive. To the extent that tires that meet the scope description are imported under these or other HTS categories not listed above, they are intended to be covered.

The requested scope of investigations is attached at **Exhibit I-13**. Relevant excerpts from the “Truck-Bus” section of most recent 2015 edition of the Tire and Rim Association Year Book are attached at **Exhibit I-14**. Petitioner notes that the light truck tires covered by existing antidumping and countervailing duty orders on passenger vehicle and light truck tires are listed in a separate section of the Tire and Rim Association Year Book and are not covered by the scope of these petitions.

F. Name of the Country of Manufacture of Subject Merchandise (19 C.F.R. § 351.202(b)(6))

The name of the country in which subject merchandise is manufactured is the People’s Republic of China.

G. Foreign Producers and Exporters (19 C.F.R. § 351.202(b)(7)(i)(A) and (ii)(A))

The names and addresses of companies believed to sell the subject merchandise at less than fair value, and believed to benefit from countervailable subsidies, that export the subject merchandise to the United States from China are provided at **Exhibit I-15**. The proportion of exports to the United States that each person accounted for in the most recent 12-month period is not publicly available to the petitioner. While there is some volume reported in the Automated Manifest System, a significant portion of the volume of exports enters as undisclosed and thus is not identified with any individual foreign producer or exporter.

H. Factual Information Relevant to Dumping (19 C.F.R. § 351.202(b)(7)(i)(B) and (C))

Factual information regarding U.S. prices of subject merchandise is provided in Volume II of these petitions. The Department of Commerce has found China to be a non-market economy. Factual information relevant to the calculation of normal value

As discussed above, energy costs have been included as part of manufacturing overhead. Goodyear's financial statement did not separately identify energy costs and thus it is presumed that such costs are already incorporated in manufacturing overhead costs. Hihero's financial statement did separately identify energy costs; therefore, energy costs were categorized as manufacturing overhead such that the manufacturing overhead ratio was calculated based on manufacturing overhead plus energy as a percent of raw material and labor costs. *See Exhibit II-34.*

E. Exchange Rate Conversions

For surrogate value data that were reported in Baht, values were converted to U.S. dollars using the daily exchange rate for July 1 to December 31 2015, as reported on the Department's website (for July through September) and in the Federal Reserve's Statistical Release H.10 (for October through December). *See Exhibit II-37.*

VII. MARGINS

For each category of tire imports, the direct materials ratios were applied to the average weight of the tire, and the surrogate value for each direct material was multiplied by the resultant direct material weights. Scrap costs for scrap rubber and scrap tires were added to the direct materials costs (and the value of reusable or saleable scrap rubber was subtracted). To the direct materials costs, costs for labor, manufacturing overhead (including energy), SG&A, and profits were added, as described above, to calculate a normal value. The adjusted price (FOB factory) for each category of tire was calculated by reducing the average FOB price of imports for the July – November 2015 period by the percentage of unrebated VAT and by the per-kilogram rate for B&H and inland freight multiplied by the average tire weight for that category. *See Exhibit II-38.* The resulting margins are shown below.

	HTS Number	Type	Tires	Total weight (kg)	Total adjusted value	Total NV	Margin
1	4011201015	Radial	3,568,787	154,157,284	385,696,734	461,883,720	19.70%
2	4011101020	Bias	254,759	6,390,051	16,049,547	19,546,756	21.74%
		Total:	3,823,546	160,547,335	401,746,281	481,430,476	
Weighted Average Dumping Margin:							19.78%

Petitioner also calculated for imports by month and entry district for the three largest entry districts for radial TBT (Los Angeles, Savannah, and New York) and the largest entry district for bias TBT (Los Angeles).⁵⁸ These margins range as high as 58.2%, as shown in the table below.

Radial Tires		July 2015	August 2015	September 2015	October 2015	November 2015
LOS ANGELES CA	Kilos per Tire	43.71	50.00	49.44	47.14	47.59
	AUV per Tire	117.05	126.33	126.38	116.94	117.62
	<i>Dumping Margin</i>	23.1%	30.1%	28.6%	9.2%	33.2%
SAVANNAH GA	Kilos per Tire	27.26	49.97	52.40	52.12	50.18
	AUV per Tire	72.67	175.75	161.69	179.34	161.80
	<i>Dumping Margin</i>	25.8%	1.3%	6.1%	-4.9%	1.6%
NEW YORK CITY NY	Kilos per Tire	49.33	51.51	52.09	45.43	47.78
	AUV per Tire	124.64	128.09	122.18	110.18	108.27
	<i>Dumping Margin</i>	30.1%	32.1%	40.1%	35.9%	45.4%
Bias Tires		July 2015	August 2015	September 2015	October 2015	November 2015
LOS ANGELES CA	Kilos per Tire	25.76	34.64	43.28	37.33	37.14
	AUV per Tire	63.66	80.02	90.50	85.52	84.29
	<i>Dumping Margin</i>	36.2%	44.0%	58.2%	44.9%	46.3%

The dumping margins calculated using the above method are conservative, and it is believed that the actual dumping margins the Department will discover during the course of an

⁵⁸ The import data for these districts by month is in Exhibit II-39.

investigation on truck and bus tires from China will be larger. For example, the methodology used in this petition does not include costs for transportation of direct materials to the manufacturing facilities from producers or ports, which are typically included in the Department's NME methodology and will increase the NV of the tires.

VIII. CONCLUSION

Based on the information reasonably available to the petitioner and contained in this petition, the Department should initiate an investigation into sales at less than fair value of truck and bus exported from China, and should impose antidumping duties in an amount that is equal to the amount by which the normal value exceeds the export price.
