Methodology

Currently, there is no option of electronic submission of this information. Submissions are made via hardcopy documentation. Applicants are referred to ITAR § 123.9 for guidance on information to submit regarding the request to change end-user, end-use and/or destination of hardware. Upon implementation of DDTC’s new case management system, The Defense Export Control and Compliance System (DECCS), a DS–6004 may be submitted electronically.

Anthony M. Dearth,
Chief of Staff, Directorate of Defense Trade Controls, U.S. Department of State.

FOR FURTHER INFORMATION CONTACT: For questions about the product exclusion process, contact Assistant General Counsels Megan Grimball or Philip Butler, or Director of Industrial Goods Justin Hoffmann at (202) 395–5725. For questions on customs classification or implementation of additional duties, contact traderec@cbp.dhs.gov.

SUPPLEMENTARY INFORMATION:

A. Background

On August 18, 2017, the Office of the U.S. Trade Representative (USTR) initiated an investigation into certain acts, policies, and practices of the Government of China related to technology transfer, intellectual property, and innovation (82 FR 40213).

In a notice published on April 6, 2018 (83 FR 14906), the Trade Representative announced a determination that the acts, policies, and practices of the Government of China covered in the investigation are unreasonable or discriminatory and burden or restrict U.S. commerce. The April 6 notice also invited public comment on a proposed action in the investigation, in the form of an additional 25 percent ad valorem duty on products from China classified in a list of 1,333 tariff subheadings, with an annual trade value of approximately $50 billion.

After review, the Trade Representative determined to take an initial action in the investigation, and to consider an additional proposed action. See 83 FR 28710 (June 20, 2018). The Trade Representative narrowed the proposed list in the April 6 notice to 818 tariff subheadings, with an approximate annual trade value of $34 billion. This initial action became effective on July 6, 2018. The additional proposed action was an additional ad valorem duty of 25 percent on products of China classified in 284 tariff subheadings, with an annual trade value of approximately $16 billion. See 83 FR 40823 (August 16, 2018). The additional duties on these products took effect on August 23, 2018.

During the notice and comment process, a number of interested persons asserted that specific products within a particular tariff subheading only were available from China, that the imposition of additional duties on the specific products would cause severe economic harm to a U.S. interest, and that the specific products were not strategically important or related to the “Made in China 2025” program. In light of such concerns, the Trade Representative determined to establish a process by which U.S. stakeholders may request that particular products classified within a covered HTSUS subheading be excluded from the additional action. That process is set out in the remainder of this notice.

B. Procedures To Request the Exclusion of Particular Products

USTR invites interested persons, including trade associations, to submit requests for exclusion from the additional duties of a particular product classified within an HTSUS subheading set out in Annex A of the notice published at 83 FR 40823 (August 16, 2018). As explained in more detail below, each request specifically must identify a particular product, and provide supporting data and the rationale for the requested exclusion. USTR will evaluate each request on a case-by-case basis, taking into account whether the exclusion would undermine the objective of the Section 301 investigation. Any exclusion will be effective starting from the August 23, 2018 effective date of the additional duties, and extending for one year after the publication of the exclusion determination in the Federal Register.

In other words, an exclusion, if granted, will apply retroactively to the August 23 date of the imposition of the additional duties. USTR will periodically announce decisions on pending requests.

1. Requests for Exclusion of Particular Products

With regard to product identification, any request for exclusion must include the following information:

• Identification of the particular product in terms of the physical characteristics (e.g., dimensions, material composition, or other characteristics) that distinguish it from other products within the covered 8-digit subheading. USTR will not consider requests that identify the product at issue in terms of the identity of approximately $16 billion. See 83 FR 40823 (August 16, 2018). The additional duties on these products took effect on August 23, 2018.

During the notice and comment process, a number of interested persons asserted that specific products within a particular tariff subheading only were available from China, that the imposition of additional duties on the specific products would cause severe economic harm to a U.S. interest, and that the specific products were not strategically important or related to the “Made in China 2025” program. In light of such concerns, the Trade Representative determined to establish a process by which U.S. stakeholders may request that particular products classified within a covered HTSUS subheading be excluded from the additional action. That process is set out in the remainder of this notice.

B. Procedures To Request the Exclusion of Particular Products

USTR invites interested persons, including trade associations, to submit requests for exclusion from the additional duties of a particular product classified within an HTSUS subheading set out in Annex A of the notice published at 83 FR 40823 (August 16, 2018). As explained in more detail below, each request specifically must identify a particular product, and provide supporting data and the rationale for the requested exclusion. USTR will evaluate each request on a case-by-case basis, taking into account whether the exclusion would undermine the objective of the Section 301 investigation. Any exclusion will be effective starting from the August 23, 2018 effective date of the additional duties, and extending for one year after the publication of the exclusion determination in the Federal Register.

In other words, an exclusion, if granted, will apply retroactively to the August 23 date of the imposition of the additional duties. USTR will periodically announce decisions on pending requests.

1. Requests for Exclusion of Particular Products

With regard to product identification, any request for exclusion must include the following information:

• Identification of the particular product in terms of the physical characteristics (e.g., dimensions, material composition, or other characteristics) that distinguish it from other products within the covered 8-digit subheading. USTR will not consider requests that identify the product at issue in terms of the identity of approximately $16 billion. See 83 FR 40823 (August 16, 2018). The additional duties on these products took effect on August 23, 2018.
of the producer, importer, ultimate consumer, actual use or chief use, or trademarks or tradenames. USTR will not consider requests that identify the product using criteria that cannot be made available to the public.

- The 10-digit subheading of the HTSUS applicable to the particular product requested for exclusion.
- Requesters also may submit information on the ability of U.S. Customs and Border Protection to administer the exclusion.

Requesters must provide the annual quantity and value of the Chinese-origin product that the requester purchased in each of the last three years. For trade association requesters, please provide such information based on your members' data. If precise annual quantity and value information are not available, please provide an estimate and explain the basis for the estimation.

For imports sold as final products, requesters must provide the percentage of their total gross sales in 2017 that sales of the Chinese-origin product accounted for.

For imports used in the production of final products, requesters must provide the percentage of the total cost of producing the final product(s) the Chinese-origin input accounts for and the percentage of their total gross sales in 2017 that sales of the final product(s) accounted for.

With regard to the rationale for the requested exclusion, each request for exclusion should address the following factors:

- Whether the particular product is available only from China. In addressing this factor, requesters should address specifically whether the particular product and/or a comparable product is available from sources in the United States and/or in third countries.
- Whether the imposition of additional duties on the particular product would cause severe economic harm to the requester or other U.S. interests.
- Whether the particular product is strategically important or related to “Made in China 2025” or other Chinese industrial programs.

In addressing each factor, the requester should provide support for their assertions. Requesters also may provide any other information or data that they consider relevant to an evaluation of the request.

Any request that contains business confidential information must be accompanied by a public version. The public version will be posted on regulations.gov.

2. Responses to Requests for Exclusions

After a request for exclusion of a particular product is posted on docket number USTR 2018–0032, interested persons will have 14 days to respond to the request, including support or opposition and providing reasons for their view. All responses must clearly identify the specific request for exclusion being addressed. You can view requests for exclusions on www.regulations.gov by entering docket number USTR–2018–0032 in the search field on the home page.

3. Replies to Responses to Requests for Exclusions

After a response is posted on docket number USTR 2018–0032, interested persons will have the opportunity to reply to the response. Any reply must be posted within the later of 7 days after the close of the 14 day response period, or 7 days after the posting of a response. All replies must clearly identify the specific responses being addressed.

4. Submission Instructions

As noted above, interested persons must submit requests for exclusions by December 18, 2018. Any responses to those requests must be submitted within 14 days after the requests are posted. Any reply to a response must be submitted within the later of 7 days after the close of the 14 day response period, or 7 days after the posting of a response. Interested persons seeking to exclude or more products must submit a separate request for each product, i.e., one product per request. All submissions must include a statement that the submitter certifies that the information provided is complete and correct to the best of his or her knowledge.

To assist in review of requests for exclusion, USTR has prepared a request form that will be posted on the USTR website under ‘Enforcement/Section 301 investigations’ and on the www.regulations.gov docket in the ‘supporting documents’ section. USTR strongly encourages interested persons to use the form to submit requests, though use of the form is not required. All submissions must be in English and sent electronically via www.regulations.gov.

5. To Submit a Product Exclusion Request

To submit requests via www.regulations.gov, enter document ID number USTR–2018–0032 on the home page and click ‘search.’ The site will provide a search results page listing the Federal Register notice associated with this docket. Find a reference to this notice and click on the link titled ‘comment now!’ Once posted on the electronic docket, the exclusion request will be viewable in the ‘primary documents’ section.

File names for requests for exclusions must include the 10-digit subheading of the HTSUS applicable to the particular product and the name of the person or entity submitting the request (e.g., 1234567890 Initech). If the request includes business confidential information, then two files must be submitted—the business confidential version and a public version. The file names must indicate the version, e.g., 1234567890 Initech BC and 1234567890 Initech P. Additional instructions on business confidential submissions can be found below in Section B.8 of this notice.

6. To Submit a Response to a Product Exclusion Request

To respond to a request for exclusion, please find the request in the ‘primary documents’ section of the docket and click on the link titled ‘comment now!’ associated with that specific request. Responses made on requests for exclusion will appear in the ‘comments’ section of the docket.

File names for responses to requests should include the document ID of the request and the name of the person or entity submitting the request (e.g., USTR–2018–0032–0005 Initrode). If the response includes business confidential information, then two files must be submitted—the business confidential information version and a public version. The file names should indicate the version, e.g., USTR–2018–0032–0005 Initrode BC and USTR–2018–0032–0005 Initrode P.

7. To Submit a Reply to a Response on a Product Exclusion Request

To reply to a response made to an exclusion request, please find the exclusion request that is the subject of the response in the ‘primary documents’ section of the docket and click on the link titled ‘comment now!’ Replies will appear in the ‘comments’ section of the docket.

File names for replies should include the document ID of the response and the name of the person or entity submitting the reply (e.g., USTR–2018–0032–0020 Initrode). If the reply includes business confidential information, then two files must be submitted—the business confidential information version and a public version. The file names must indicate the version, e.g., USTR–2018–0032–0020 Initrode BC and USTR–2018–0032–0020 Initrode P.
For further information on using the www.regulations.gov website, please consult the resources provided on the website by clicking on ‘How to Use Regulations.gov’ on the bottom of the home page.

8. Document Format Instructions

Submit requests for product exclusions in an attached document. Type ‘see attached’ in the ‘comment’ field. USTR prefers submissions made using the request form that will be posted on the USTR website under ‘Enforcement/Section 301 investigations’ and on the www.regulations.gov docket in the ‘supporting documents’ section and saved as a searchable Adobe Acrobat (.pdf) document. If you do not use the USTR form, USTR prefers submissions made in Microsoft Word (.doc) or searchable Adobe Acrobat (.pdf). If you use an application other than those two, please indicate the name of the application in the ‘comment’ field.

Please do not attach separate cover letters to electronic submissions; rather, include any information that might appear in a cover letter in the comments themselves. Similarly, to the extent possible, please include any exhibits, annexes, or other attachments in the same file as the comment itself, rather than submitting them as separate files.

For any documents submitted electronically containing business confidential information, the file name of the business confidential version must end with the characters ‘BC’. Any page containing business confidential information must be clearly marked ‘BUSINESS CONFIDENTIAL’ on the top of that page and the submission should clearly indicate, via brackets, highlighting, or other means, the specific information that is business confidential. If you request business confidential treatment, you must certify in writing that disclosure of the information would endanger trade secrets or confidentiality, and that the information would not customarily be released to the public. Filers of submissions containing business confidential information also must submit a public version of their submissions. The file name of the public version must end with the character ‘P’. The ‘BC’ and ‘P’ should follow the rest of the file name. If these procedures are not sufficient to protect business confidential information or otherwise protect business interests, please contact the USTR Section 301 line at (202) 395–5725 to discuss whether alternative arrangements are possible.

Robert E. Lighthizer,
United States Trade Representative.

BILLING CODE 3290–F8–P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA–2018–0026]

Petition for Waiver of Compliance

Under part 211 of Title 49 Code of Federal Regulations (CFR), this provides the public notice that on June 7, 2018, the Western Maryland Scenic Railroad (WMSR) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR parts 215 and 224. FRA assigned the petition Docket Number FRA–2018–0026.

Specifically, WMSR requests relief from 49 CFR 215.303, Stenciling of restricted cars, and 49 CFR part 224, Reflectorization of Rail Freight Rolling Stock, for 16 freight cars. WMSR explains it is a non-profit entity, operating on 17 miles of track from Ridgeley, WV, through Cumberland, MD, and west to Frostburg, MD. WMSR owns several freight cars of various built and rebuilt dates, and primarily uses this equipment as operating historic artifacts. WMSR receives inquiries for this equipment as operating historic artifacts. WMSR receives inquiries for the making up and operation of historic demonstration trains using the freight cars for photography, historic documentation, and film production, along with its diesel and steam engines. Because the chartering of such demonstration trains is potentially profitable, WMSR would like the flexibility to make and operate the historic freight trains at any time. WMSR states these “dedicated service” cars have been certified as safe to operate. The cars will only be operated occasionally, on WMSR track, empty, and at or below 10 miles per hour.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation’s (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE, W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- Website: http://www.regulations.gov. Follow the online instructions for submitting comments.
- Hand Delivery: 1200 New Jersey Avenue SE, Room W12–140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by November 2, 2018 will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable.

Anyone can search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at https://www.transportation.gov/privacy. See also https://www.regulations.gov/privacyNotice for the privacy notice of regulations.gov.

Issued in Washington, DC.
