

U.S. IMPORTERS' QUESTIONNAIRE

QUARTZ SURFACE PRODUCTS FROM CHINA

This questionnaire must be received by the Commission by **January 18, 2019**
See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its antidumping and countervailing duty investigations concerning quartz surface products from China (Inv. Nos. 701-TA-606 and 731-TA-1416 (Final)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

CERTIFICATION

I certify that the information herein supplied in response to this questionnaire is complete and correct to the best of my knowledge and belief and understand that the information submitted is subject to audit and verification by the Commission. By means of this certification I also grant consent for the Commission, and its employees and contract personnel, to use the information provided in this questionnaire and throughout this proceeding in any other import-injury proceedings conducted by the Commission on the same or similar merchandise.

I, the undersigned, acknowledge that information submitted in response to this request for information and throughout this proceeding or other proceedings may be disclosed to and used: (i) by the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel, solely for cybersecurity purposes. I understand that all contract personnel will sign appropriate nondisclosure agreements.

PART I.--GENERAL INFORMATION

Background.--This proceeding was instituted in response to a petition filed on April 17, 2018 by Cambria Company LLC, Eden Prairie, Minnesota. Antidumping and countervailing duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at

https://www.usitc.gov/investigations/701731/2018/quartz_surface_products_china/final.htm.

Quartz surface products (QSP) covered by these investigations are slabs and other surfaces created from a mixture of materials that includes predominately silica (e.g., quartz, quartz powder, cristobalite) as well as a resin binder (e.g., an unsaturated polyester). The incorporation of other materials, including, but not limited to, pigments, cement, or other additives does not remove the merchandise from the scope of these investigations. However, the scope of these investigations only includes products where the silica content is greater than any other single material, by actual weight. Quartz surface products are typically sold as rectangular slabs with a total surface area of approximately 45 to 60 square feet and a nominal thickness of one, two, or three centimeters. However, the scope of these investigations includes surface products of all other sizes, thicknesses, and shapes. In addition to slabs, the scope of these investigations includes, but is not limited to, other surfaces such as countertops, backsplashes, vanity tops, bar tops, work tops, tabletops, flooring, wall facing, shower surrounds, fire place surrounds, mantels, and tiles. Certain quartz surface products are covered by these investigations whether polished or unpolished, cut or uncut, fabricated or not fabricated, cured or uncured, edged or not edged, finished or unfinished, thermoformed or not thermoformed, packaged or unpackaged, and regardless of the type of surface finish.

In addition, quartz surface products are covered by these investigations whether or not they are imported attached to, or in conjunction with, non-subject merchandise such as sinks, sink bowls, vanities, cabinets, and furniture. If quartz surface products are imported attached to, or in conjunction with, such non-subject merchandise, only the quartz surface product is covered by the scope.

Subject merchandise includes material matching the above description that has been finished, packaged, or otherwise fabricated in a third country, including by cutting, polishing, curing, edging, thermoforming, attaching to, or packaging with another product, or any other finishing, packaging, or fabrication that would not otherwise remove the merchandise from the scope of these investigations if performed in the country of manufacture of the quartz surface products.

The scope of these investigations does not cover quarried stone surface products, such as granite, marble, soapstone, or quartzite. Specifically excluded from the scope of these investigations are crushed glass surface products. Crushed glass surface products are surface products in which the crushed glass content is greater than any other single material, by actual weight.

The products subject to the scope are currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under the following subheading: 6810.99.0010. Subject merchandise may also enter under subheadings 6810.11.0010, 6810.11.0070, 6810.19.1200, 6810.19.1400, 6810.19.5000, 6810.91.0000, 6810.99.0080, 6815.99.4070, 2506.10.0010, 2506.10.0050, 2506.20.0010, 2506.20.0080. The HTSUS subheadings set forth above are provided for convenience and U.S. Customs purposes only. The written description of the scope is dispositive.

Quartz surface products within the scope of these investigations include not fabricated slabs, fabricated quartz surface products, and custom-finished fully-fabricated quartz surface products.

Not fabricated slabs ("Slabs") are defined as quartz surface products that have not been fabricated or finished in any way (i.e. cutting to a specific size, edging, attaching to another product, or any other fabrication or finishing, etc.). Slabs require further fabrication to be ready for installation. Synonyms: Slabs, unfabricated quartz surface products, unfabricated QSP, not fabricated quartz surface products, not fabricated QSP, unfabricated slabs, quartz slabs.

Fabricated quartz surface products ("Fabs") are defined as quartz products that have been fabricated or finished to any degree (i.e. cutting to a specific size, edging, attaching to another product, or any other fabrication or finishing, etc.). Fabs may be ready for installation or may require some additional fabrication prior to installation. Synonyms: Fabs, fabricated quartz surface products, fabricated QSP, fabricated products. **Note.--Fabricated QSP can contain merchandise that is only partially fabricated (i.e., requires additional fabrications prior to installation or final sale) as well as fully fabricated and finished merchandise that is ready for installation.**

Custom-finished fully-fabricated quartz surface products ("CFFFQSP") are defined as a fully finished fabricated quartz surface products designed to work with other quartz and non-quartz components and to be installed without further cutting or fabrication. CFFFQSP are quartz surface products fabricated with fully finished edges and joints, and all exposed surfaces are polished. CFFFQSP are created for particular projects that have already been completely designed, including details such as specialized edge styles, shapes and sizes of sinks, counter shapes, millwork, and other details. CFFFQSP has a range of prefinished products (e.g., vanities and backsplashes), assembled to form structural units or attached together to form a perceived single unit, which can be installed without further fabrication. CFFFQSP are a subset of fabricated quartz surface products.

Summary

$$QSP = Slabs + Fabs$$

$$Fabs = Parital Fabs + CFFFQSP$$

$$QSP = Slabs + Fabs (Parital Fabs + CFFFQSP)$$

Questionnaire(s) That your firm should complete (based on your firm's business model).

Required submission	Your firm's business model			
	Import and resell	Import, fabricate, and sell	Import, fabricate, and install	Import and install (no fabrication)
U.S. importers' questionnaire	Yes	Yes	Yes	Yes
U.S. producers' questionnaire	No	Yes	Yes	No
U.S. purchasers' questionnaire	No	No	Yes	Yes

Importer.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing quartz surface products (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Reporting of information.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

Confidentiality.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

Valid number error messages.--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Lawrence Jones (202-205-3358, Lawrence.Jones@usitc.gov).

D-GRIDS tool.--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macro-enabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is *optional*. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself. Please refer to the matrix below to determine your response.

I-1. **OMB statistics.**--Please report below the actual number of hours required and the cost to your firm of completing this questionnaire.

Hours	Dollars

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 40 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please attach such comments to your response or send to the Office of Investigations, USITC, 500 E St. SW, Washington, DC 20436.

I-2. **Establishments covered.**--Provide the name and address of establishment(s) covered by this questionnaire. If your firm is publicly traded, please specify the stock exchange and trading symbol.

"Establishment"--Each facility of a firm involved in the importation of quartz surface products, including auxiliary facilities operated in conjunction with (whether or not physically separate from) such facilities.

--

I-3. **Ownership.**--Is your firm owned, in whole or in part, by any other firm?

No Yes--List the following information

Firm name	Address	Extent of ownership (percent)

I-4. **Related importers/exporters.**--Does your firm have any related firms, either domestic or foreign, that are engaged in importing quartz surface products (unfabricated slabs or fabricated products) from China into the United States or that are engaged in exporting quartz surface products (unfabricated slabs or fabricated products) from China to the United States?

No Yes--List the following information.

Firm name	Country	Affiliation

I-5. **Related producers and fabricators.**--Does your firm have any related firms, either domestic or foreign, that are engaged in the production and/or fabrication of quartz surface products?

No Yes--List the following information.

Firm name	Country	Affiliation	Producer or fabricator?

I-6. **Importing operations.**--Please indicate the nature of your firm's importing operations on quartz surface products (unfabricated slabs or fabricated products). More than one answer may be applicable.

Importer of record	Takes title to the imported product(s)	Consignee of the imported products(s)	Customs broker or freight forwarder
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

I-7. **Consignee.**--If your firm is an importer of record of quartz surface products (unfabricated slabs or fabricated products) but is not the consignee, please list the consignees below (firm name, address, telephone number, and individual to contact).

Firm name	Address	Contact person and phone number

I-8. **FTZ, TIB, or bonded warehouses.**--Please indicate whether your firm enters quartz surface products (unfabricated slabs or fabricated products) into, or withdraws such merchandise from, foreign trade zones or bonded warehouses. Also indicate whether your firm imports quartz surface products under the TIB (temporary importation under bond) program.

“Foreign trade zone” is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise, as well as other savings. A foreign trade zone must be designed as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.

“Bonded warehouse” is a secured facility supervised by U.S. customs, where dutiable landed imports are stored pending their re-export, or release after payment of import duties, taxes, and other charges. A bonded warehouse must be designed as such pursuant to the rules and procedures set forth in 19 U.S.C. § 1555.

“Temporary Importation under Bond (“TIB”) program” is a procedure whereby imported merchandise may be entered under certain conditions for a limited time into the United States free of duty. Under the program, an importer posts a bond for twice the amount of duty, taxes, etc. that would otherwise be owed on the importation and agrees to export or destroy the merchandise within a specified time or pay liquidated damages. This program is restricted to certain categories of merchandise listed in subheadings 9813.00.05 through 9813.00.75 of the Harmonized Tariff Schedule of the United States (HTS).

Definitions

“Imports” --Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty) or consignee (i.e., to which the merchandise was first delivered).

“Import quantities” --Quantities reported should be net of returns.

“Import values”--Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).

“U.S. commercial shipments”-- Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

“Internal consumption” --Product consumed internally by your firm. Such transactions are valued at fair market value. If your firm fabricates its imports quartz surface products domestically in the United States prior to sale to a customer or prior to installation at a customer's location, report those shipments as internal consumption valued at fair market value of the unfabricated slab (and also download and complete the U.S. producers' questionnaire). If your firm installs the quartz surface product at a customer's location, those shipments must be reported as internal consumption and be valued exclusive of the installation costs and services. If your firm adds value to the quartz surface products by fabricating them domestically in the United States, those shipments for the purposes of the importers' questionnaire must also be reported as internal consumption at the time they are transferred to the fabrication shop for processing, and be valued in this questionnaire exclusive of the domestic fabrication value added. At that point, nothing further is reported in the importers' questionnaire in relation to that "internally consumed" merchandise; however, that merchandise then must be reported in the U.S. producers' questionnaire, which will report on the value added domestically to those quartz surface products.

“Transfers to related firms” --Shipments made to related domestic firms. Such transactions are valued at fair market value.

“Related firm” --A firm that your firm solely or jointly owns, manages, or otherwise controls.

“Export shipments”-- Shipments to destinations outside the United States, including shipments to related firms.

“Inventories” --Finished goods inventory, not raw materials or work in progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

Definitions—Continued

	Slabs (II-5 and II-7)	Fabs (II-6 and II-8)
Imports	Imports of unfabricated quartz slabs	Imports of fabricated quartz surface products (either partially fabricated QSP or CFFFQSP)
Commercial U.S. shipments	Sales in the same form / format the merchandise was imported as (i.e., no domestic processing/ fabrication) <i>and</i> must represent sales of merchandise that is not being installed by your firm.	Sales in the same form / format the merchandise was imported as (i.e., no domestic processing/ fabrication) <i>and</i> must represent sales of merchandise that is not being installed by your firm.
Internal consumption	Any merchandise fabricated domestically by your own firm prior to sale to customer or installation at a customer's location.	Any merchandise <i>further</i> fabricated domestically by your own firm prior to sale to customer or installation at a customer's location; or any merchandise sold to a customer without further fabrication as part of a total turnkey installation service.
Internal consumption valuation	Value of internal consumption should be the fair market value of the unfabricated slab (i.e., prior to domestic fabrication).	Value of internal consumption should be the fair market value of the partially or fully fabricated quartz surface product, but exclude any installation service costs or additional domestic fabrication costs.
Inventories	Reported inventories must be slab form (same form as imported in). If your firm is a fabricator, do not report WIP inventories for merchandise that your firm has started fabricating domestically in the United States as inventories in this questionnaire.	Reported inventories must be fab form (same form as imported in). If your firm is a total turnkey installation service provider, do not include inventories of CFFFQSP that have been shipped to your customers' locations for installation. Additionally, if your firm is a fabricator, do not include WIP inventories for merchandise that your firm has started further fabricating domestically in the United States.
Channels	If your firm reports "internal consumption" because your firm conducts domestic fabrication activities on its imported QSP, those shipments should be classified as shipments "to fabricators or retailers" in the channels of distribution question.	If your firm reports "internal consumption" because your firm conducts domestic fabrication activities on its imported QSP, those shipments should be classified as shipments "to fabricators or retailers" in the channels of distribution question.

RECONCILIATION OF MONTHLY IMPORTS.-- Please ensure that the total imports reported for full year 2017, and for the two partial periods (e.g., January-September 2017 and January-September 2018) reported in question II-5a matches the monthly data reported here. If the calculated fields below return values other than zero (i.e., "0"), the data reported must be revised prior to submission to the Commission.

No	Yes	If no--What are the other end uses for quartz slabs?
<input type="checkbox"/>	<input type="checkbox"/>	

(b) **Markets.**--

(i) Do you perceive the slab market to be a separate market from the fabs market?

Yes, slabs and fabs are perceived as having distinct markets.

No, slabs and fabs are perceived to have a single market.

(ii) Please describe the market for your firm's imported slabs that your firm does not further fabricate.

(iii) Please describe the market for your firm's imported fabs.

II-9. **Comparability of slabs vs fabs** --Continued.

PRICE DATA

III-2. This question requests quarterly quantity and value data for your firm's commercial shipments to unrelated U.S. customers since January 1, 2015 of the following products your firm imported from China, separately for slabs and CFFFQSP:

Product 1.--Plain white quartz surface products, with a nominal thickness of 2 cm, no veining or movement, and with minimal to no visible particulates, specks, chips, or crystals that are sold to firms other than distributors.

Product 2.-- Plain white quartz surface products, with a nominal thickness of 3 cm, no veining or movement, and with minimal to no visible particulates, specks, chips, or crystals that are sold to firms other than distributors.

Product 3.--White quartz surface products with a "marble look", a nominal thickness of 2 cm, with veining or movement, and with minimal to no visible particulates, specks, chips, or crystals that are sold to firms other than distributors.

Product 4.-- White quartz surface products with a "marble look", a nominal thickness of 3 cm, with veining or movement, and with minimal to no visible particulates, specks, chips, or crystals that are sold to firms other than distributors.

Product 5.-- Neutral colored quartz surface products with a "natural stone look", a nominal thickness of 2 cm, with movement and visible particulates, specks, chips, or crystals that are sold to firms other than distributors.

Product 6.-- Neutral colored quartz surface products with a "natural stone look", a nominal thickness of 3 cm, with movement and visible particulates, specks, chips, or crystals that are sold to firms other than distributors.

Please note that values should be f.o.b., U.S. point of shipment and should not include U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts or rebates).

During January 2015-September 2018, did your firm import from China, Israel or Spain and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)? Do not include internal consumption or any sales that also involved total turnkey installation services.

<input type="checkbox"/>	Yes. --Please complete the following pricing data table(s) as appropriate.

For any country-pair for which factors other than price <i>always</i> or <i>frequently</i> are a significant factor in your firm's sales of quartz surface products, identify the country-pair and report the advantages or disadvantages imparted by such factors:				

III-20. **Other explanations.**--If your firm would like to further explain a response to a question in Part III that did not provide a narrative response box, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

PART IV.--ALTERNATIVE PRODUCT INFORMATION

Further information on this part of the questionnaire can be obtained from **Lawrence Jones (202-205-3358, Lawrence.Jones@usitc.gov)**.

IV-1. **Comparisons.**--For each of the following indicate whether listed quartz surface products are: fully comparable or the same, *i.e.*, have no differentiation between them; mostly comparable or similar; somewhat comparable or similar; never or not-at-all comparable or similar; or no familiarity with products.

F: fully comparable or the same, *i.e.*, have no differentiation between them;

M: mostly comparable or similar;

S: somewhat comparable or similar;

N: never or not-at-all comparable or similar; or

O: no familiarity with products.

(a) **Physical Characteristics and End Uses.**--The differences and similarities in the physical characteristics and end uses.

Product-pair	Comparison	Please provide a narrative discussion for the comparability ratings you provided in terms of their <i>physical characteristics and uses</i> :
Slabs vs Fabs		
Slabs vs CFFFQSP		
Partial fabs vs CFFFQSP

Partial fabs vs CFFFQSP		

Correcting Valid number error messages.--If you are completing a Commission questionnaire in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. This issues stem from your computer number formatting setting (e.g., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (,) delineate multiples of 1000 and periods (.) delineate fractions less than one. Many EU countries use the reverse where multiples of 1000 are delineated with periods (.) and fractions less than one are delineated with commas (,). The US International Trade Commission's questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU number formatting, we believe this may cause this issue.

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g. "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the questionnaire. When you finish reporting the data then you can close the questionnaire and switch back to Italy settings.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a “fillable” form in MS Word format on the Commission’s website at:

https://www.usitc.gov/investigations/701731/2018/quartz_surface_products_china/final.htm

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

- **Upload via Secure Drop Box.**--Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission’s secure upload facility:

Web address: <https://dropbox.usitc.gov/oinv/> **Pin:** QSP

- **E-mail.**--E-mail the MS Word questionnaire to Lawrence.Jones@usitc.gov; include a scanned copy of the signed certification page (page 1). *Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm’s nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.*

If your firm did not import this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

Parties to this proceeding.--If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission’s Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
