**PART I.—GENERAL INFORMATION**

***Background.***--This proceeding was instituted in response to a petition filed on April 17, 2018 by Cambria Company LLC, Eden Prairie, Minnesota. Antidumping and countervailing duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce (“Commerce”) makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at:

[https://www.usitc.gov/investigations/701731/2018/quartz\\_surface\\_products\\_china/final.htm](https://www.usitc.gov/investigations/701731/2018/quartz_surface_products_china/final.htm).

***Quartz surface products (QSP)*** covered by these investigations of slabs and other surfaces created from a mixture of materials that includes predominately silica (e.g., quartz, quartz powder, cristobalite) as well as a resin binder (e.g., an unsaturated polyester). The incorporation of other materials, including, but not limited to, pigments, cement, or other additives does not remove the merchandise from the scope of the investigation. However, the scope of the investigation only includes products where the silica content is greater than any other single material, by actual weight. Quartz surface products are typically sold as rectangular slabs with a total surface area of approximately 45 to 60 square feet and a nominal thickness of one, two, or three centimeters. However, the scope of this investigation includes surface products of all other sizes, thicknesses, and shapes. In addition to slabs, the scope of this investigation includes, but is not limited to, other surfaces such as countertops, backsplashes, vanity tops, bar tops, work tops, tabletops, flooring, wall facing, shower surrounds, fire place surrounds, mantels, and tiles. Certain quartz surface products are covered by the investigation whether polished or unpolished, cut or uncut, fabricated or not fabricated, cured or uncured, edged or not edged, finished or unfinished, thermoformed or not thermoformed, packaged or unpackaged, and regardless of the type of surface finish.

In addition, quartz surface products are covered by the investigation whether or not they are imported attached to, or in conjunction with, non-subject merchandise such as sinks, sink bowls, vanities, cabinets, and furniture. If quartz surface products are imported attached to, or in conjunction with, such non-subject merchandise, only the quartz surface product is covered by the scope.

Subject merchandise includes material matching the above description that has been finished, packaged, or otherwise fabricated in a third country, including by cutting, polishing, curing, edging, thermoforming, attaching to, or packaging with another product, or any other finishing, packaging, or fabrication that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the quartz surface products.

The scope of the investigation does not cover quarried stone surface products, such as granite, marble, soapstone, or quartzite. Specifically excluded from the scope of the investigation are crushed glass surface products. Crushed glass surface products are surface products in which the crushed glass content is greater than any other single material, by actual weight.

The products subject to the scope are currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under the following subheading: 6810.99.0010. Subject merchandise may also enter under subheadings 6810.11.0010, 6810.11.0070, 6810.19.1200, 6810.19.1400, 6810.19.5000, 6810.91.0000, 6810.99.0080, 6815.99.4070, 2506.10.0010, 2506.10.0050, 2506.20.0010, 2506.20.0080.

The HTSUS subheadings set forth above are provided for convenience and U.S. Customs purposes only. The written description of the scope is dispositive.

Quartz surface products within the scope of these investigations include not fabricated slabs, fabricated quartz surface products, and custom-finished fully-fabricated quartz products.

**Not fabricated slabs ("Slabs")** are defined as quartz surface products that have not been fabricated or finished in any way (*i.e.* cutting to a specific size, edging, attaching to another product, or any other fabrication or finishing, etc.). Slabs require further fabrication to be ready for installation. Synonyms: Slabs, unfabricated quartz surface products, unfabricated QSP, not fabricated quartz surface products, not fabricated QSP, unfabricated slabs, quartz slabs. **Note.--Fabricated QSP can contain merchandise that is only partially fabricated (i.e., requires additional fabrications prior to installation or final sale) as well as fully fabricated and finished merchandise that is ready for installation.**

**Fabricated quartz surface products ("Fabs")** are defined as quartz products that have been fabricated or finished to any degree (*i.e.* cutting to a specific size, edging, attaching to another product, or any other fabrication or finishing, etc.). Fabs may be ready for installation or may require some additional fabrication prior to installation. Synonyms: Fabs, fabricated quartz surface products, fabricated QSP, fabricated products.

**Custom-finished fully-fabricated quartz surface products ("CFFFQSP")** are defined as a fully finished fabricated quartz surface products designed to work with other quartz and non-quartz components and to be installed without further cutting or fabrication. CFFFQSP are quartz surface products fabricated with fully finished edges and joints, and all exposed surfaces are polished. CFFFQSP are created for particular projects that have already been completely designed, including details such as specialized edge styles, shapes and sizes of sinks, counter shapes, millwork, and other details. CFFFQSP has a range of prefinished products (*e.g.*, vanities and backsplashes), assembled to form structural units or attached together to form a perceived single unit, which can be installed without further fabrication. CFFFQSP are a subset of fabricated quartz surface products.
